

Thank you for inquiring about the Kendall GelThotics satisfaction guarantee.

How can we offer a money back guarantee? We can, because Kendall GelThotics are the highest quality, longest lasting orthotic on the market. Made from medical grade silicone, it not only provides more support than a conventional orthotic, but does it with softness and reduction of friction and shear forces which Silicone naturally does better than any other material. It helps retain the integrity of the natural fat pad under the heel, absorbing shock, reducing the effect of friction, and stabilizing the heel. The secret to the GelThotics is its SupportXGel, a modified ultra-soft long-life silicone gel that helps control pronation with stability through every phase of the gait cycle and provides one of the highest levels of shock reduction ever tested.

## The Kendall GelThotic is a Medically Effective Orthotic

You are restoring your feet and arches to a more healthy position!  
This is a lot like going to the gym for the first time. Take some time to become acclimated to using your GelThotics based on your own individual use and needs.

### **FOR BEST RESULTS:**

1. Place the GelThotic under the soft inner sole of your shoe
2. Wear GelThotics for a day or two
3. Take them out of your shoes for two days
4. Replace GelThotics and wear continuously
5. If you experience any discomfort, repeat this process

If you are not satisfied with how GelThotics perform for you, simply return them to us for a full refund of your purchase price minus shipping charges.

Sincerely,

The GelThotics Team
